

# **CPR File Viewer Installation Instructions (ZIP version)**

## **1. Install Microsoft .NET Framework version 2.0**

**CPR File Viewer** requires the **Microsoft .NET Framework version 2.0**. You should first verify if you have this installed on your computer by doing the following:

- Choose Control Panel
- Choose Add/Remove Programs
- Here you will find a list of programs currently installed on your machine.

If you do not already have this installed on your computer, please download and install it from the following Web page:

<http://www.microsoft.com/downloads/details.aspx?FamilyID=0856EACB-4362-4B0D-8EDD-AAB15C5E04F5&displaylang=en>

Please note: you may find that you do not have the appropriate access to your machine to install this software. If this is the case, please contact your I.T. Support staff.

## **2. Choose location for program files**

For example you could create a new folder named **CPR File Viewer** on your Desktop by doing the following:

- Minimize all windows
- Right click on your desktop
- Choose NEW
- Choose FOLDER
- Name folder CPR File Viewer

## **3. Save the ZIP file to the CPR File Viewer Folder on your desktop**

- Go to <http://dcarc.pae.osd.mil>
- Choose the EVM-CR tab
- Choose the option to DOWNLOAD CPR FILE VIEWER
- Fill out the CPR File Viewer Request form
- Double click on the CPRFileViewer.zip
- Choose Save
- Select Desktop and locate the CPR File Viewer folder

## **4. Extract program files from ZIP archive**

- Minimize all windows
- Double click the CPR File Viewer folder
- Double click CPRFileViewer.zip
- A list of files will be displayed. Highlight all file names and drag them to the CPR File Viewer Folder on your Desktop.
- Encryption password is: OSDDCARC

## **5. Create shortcut (optional)**

For easy access to the application, you can create shortcut and place it either in the **Start** menu or on the **Desktop**. To create a shortcut to CPR File Viewer, right-click on the file **CPRFileViewer.exe** and select **Create Shortcut** from the popup menu.

## **6. Run application**

Double-click the file named **CPRFileViewer.exe** in the **CPR File Viewer** folder.
